

FOR IMMEDIATE RELEASE

Avitech to Showcase Sequoia 4H with Touchscreen Support at InfoComm 2011

REDMOND, WASHINGTON, June 7, 2011 – Avitech International Corporation will showcase the Sequoia 4H with touchscreens from Elo and CyberTouch at InfoComm 2011 in Orlando, Florida from June 15-17. Avitech will be located at Booth# 3021.

Avitech is proud to announce support of touchscreen functionality for its Sequoia 4H module. A revolutionary design in the world of multiviewing, this feature enables an industry-unique method of human interface and offers an unprecedented user experience. Now, for the first time, easy monitoring is literally at your fingertips.

The 4H module's sleek design features a hidden, low-noise fan and a rack mountable frame. It integrates a USB hub, speakers, microphone/headphone jacks, and mouse/keyboard switching function alongside four HDCP compliant HDMI inputs. All input windows are freely adjustable and have full screen capability through both keyboard and touchscreen control. The 4H has a projected release for the end of June.
