

FOR IMMEDIATE RELEASE

The Sequoia 4H: One of a Kind Multiviewing

REDMOND, WASHINGTON, April 28, 2011 – Avitech International Corporation has announced the forthcoming release of the newest addition to the Sequoia series, the Sequoia 4H, which is projected to be released in June 2011.

The Sequoia 4H empowers multi-tasking on an unprecedented level and is unlike any other multiviewer on the market. Perfect for custom home A/V installations, meeting rooms, and streamlining complex workflows, the 4H combines the efficiency of a mouse keyboard control with touchscreen functionality and the broad applicability of HDMI inputs.

The module's sleek design features a hidden, low-noise fan and a rack mountable frame. The 4H integrates a USB hub, speakers, microphone, and switching function for keyboard/mouse. All input windows are freely adjustable and have full screen capability, offering unlimited versatility. The 4H will also support touchscreen capability.
